Mission & Vision

Our Mission is to form partnerships with the community, clients and other relevant stakeholders to empower people with disabilities to achieve their goals.

Our Vision is to provide quality allied health and disability support services across Melbourne and eventually across Australia to enrich the lives of disabled Australians.

Our Values

- Excellence in our services and daily interactions
[**Excellence**]
- Caring and understanding approach
[**Compassion**]
- Respecting and treating all with dignity [**Respect**]
- Integrity in all we do
[**Integrity**]

We love to make a difference in the lives of our participants by helping them achieve meaningful goals and to stay independent and included in the community.

Our Organisation

Eden Allied is a family business born out of a passion for delivering quality services that improve the lives of participants and of their families. Our Services and supports are centered on the participant's strengths, interests, and goals, and ensure participants lead and direct the types of supports they choose, thereby placing them at the centre of decision-making.

We service most of metro Melbourne, our clients include people with disabilities who are self-funded or funded through the NDIS.

Services

Assistance with Daily Living

Individualised support services in the comfort of your home, assessing your daily needs and assisting you to live happier and a more independent life.

Community Participation

Our experienced support workers can link you with various activities of your choosing in the community.

Short-Term Accommodation

We provide respite care to create a unique getaway experience for people with support needs, whilst giving their loved ones a break from their carer role.

Allied Health Services

Our allied health professionals can assess your daily living skills and mobility, prescribe equipment, set up assistive technology, conduct home assessments, and more to maximize your independence.
